

Lumlife 150W Highbay Light

The LUMILife 150 Watt High Bay features a Philips chip and a Meanwell driver encased within an IP65-rated aluminium body for an enduring build-quality suited to industrial environments.

- High luminous efficiency
- Exclusive LEDVANCE design
- Energy savings up to 60%
- 5 year guarantee
- Optimised weight and size due to compact design

There are multiple add-ons available to choose from for a truly tailored lighting solution ideal in particularly challenging areas and locations.

Size
W290 x H250mm

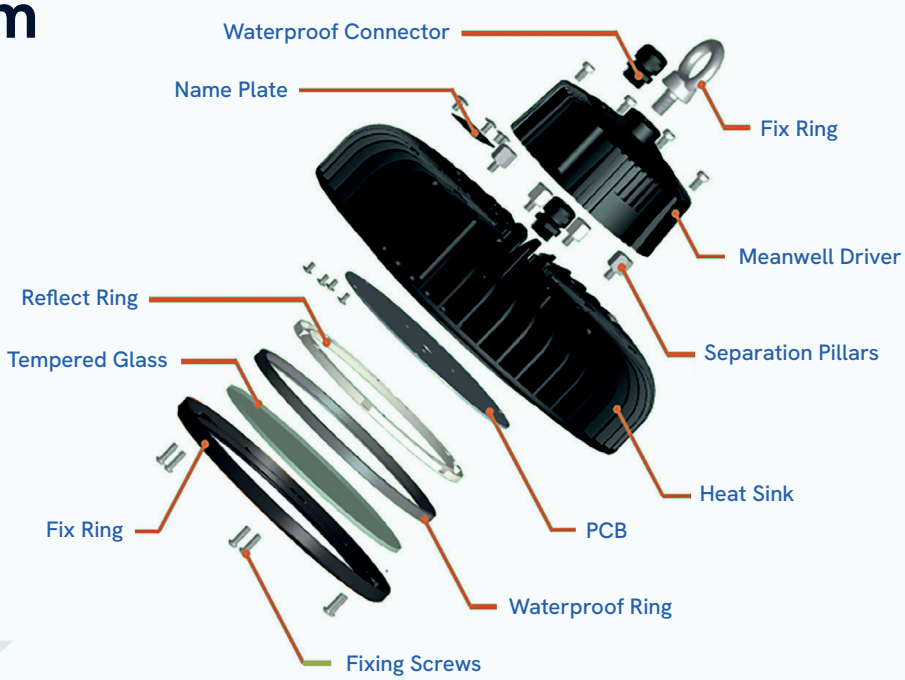

Add-ons
Daylight and/or Motion Detectors

Fitment
Flexible Installation

Fast, flexible industrial lighting solutions

Facts

You can replace a 400W Metal Halide model and enjoy savings of up to 65% while maintenance costs are also markedly reduced thanks to a high thermal efficiency aluminium heatsink that leads to a low operating temperature and greater heat dissipation giving this unit an impressive 50,000hr lifespan.

There are multiple add-ons available to choose from for a truly tailored lighting solution. For example, you can increase energy savings with microwave or daylight sensors, which operate the luminaire when motion or a lack of daylight is detected.

Furthermore, the additional adjustable installation bracket allows for a more flexible approach to installation particularly in challenging areas and locations.

Optional Add-ons

Daylight Sensor

Motion Sensor

Daylight + Motion Sensor

Technical Information

Model	Wattage	Colour	Colour
HB-150D-CIR-V2	150W	Cool White	5700K
ERP Lumens	**Lumens Per Watt**	**Material**	**Weight**
