

Our robust, relocatable temporary workshop buildings expand your space to perform maintenance or increase the capacity of your workshop.

Temporary Workshop

Our buildings are ideal as a temporary workshop, service bay or garage, and we offer bespoke design packages for more complex sites. Our quality, durable, and cost-effective temporary workshops are available in the short and long term to suit all budgets.

We work with the automotive sector and other workshop needs across the UK, so we have the expertise and experience to solve your temporary workspace challenges.

Dimensions

Quality standards

- ▶ Strong and durable industrial aluminium frame with a ten year guarantee.
- ▶ Snow and wind loadings to BSEN1991.
- ▶ All roof wall and floor systems conform to British fire and safety codes.

Technical features

- ▶ Installed in days by anchoring down to existing hard standing.
- ▶ Easily installed. Dismantled, modified or relocated.
- ▶ Coloured roof and wall options. Buildings can be linked together or link to existing structures.
- ▶ Maintenance packages available, plus 24 hour emergency call out.
- ▶ PVC and Thermo Roof provide high degree of natural light
- ▶ Bespoke sizes available on request.

Environment

- ▶ Our temporary buildings have a high level of re-usability and recycling properties.
- ▶ Aluminium is one of the most cost-effective materials to recycle and can be recycled indefinitely a process that requires little energy and creates minimal CO₂ emissions.
- ▶ We are keen to play a part in protecting the environment and have a commitment to operate an environmental policy.
